

PORTFOLIO

Joffrey Achard

2 0 2 5

Hello,

Joffrey Achard

Specialized in Communication, Writing, and Content Strategy

After completing my Master's degree in Communication, Marketing, and Advertising at ESP (École Supérieure de Publicité) in Lyon, I specialized in digital and event communication.

I am passionate about digital media and new technologies serving communication, a field in which I have been actively involved on a voluntary basis for the past five years. I work as a journalist for Valliue, a media outlet present on social networks and a dedicated website. Its mission is to inform the public about electronic music news and it currently gathers more than 10,000 followers. I also manage numerous partnerships (Delta Festival, Lollapalooza Paris, Pharaonic Festival, etc.).

In addition, I have gained four years of professional experience in marketing and communication at BASSETTI Group, AÉSIO Mutuelle, and Educlever. In this portfolio, you will find all the projects I have created or contributed to over the past few years.

Project 1 – Article Writing

Since August 2021, I have been working as a volunteer journalist for Valliue. I write and format articles for the website, which I then promote across our social media platforms (Instagram, Facebook, Twitter/X). Throughout the year, I also negotiate several partnerships with different organizations across France to promote their festivals, concerts, or club events. These partnerships include the writing of multiple articles.

I write various types of articles, such as:

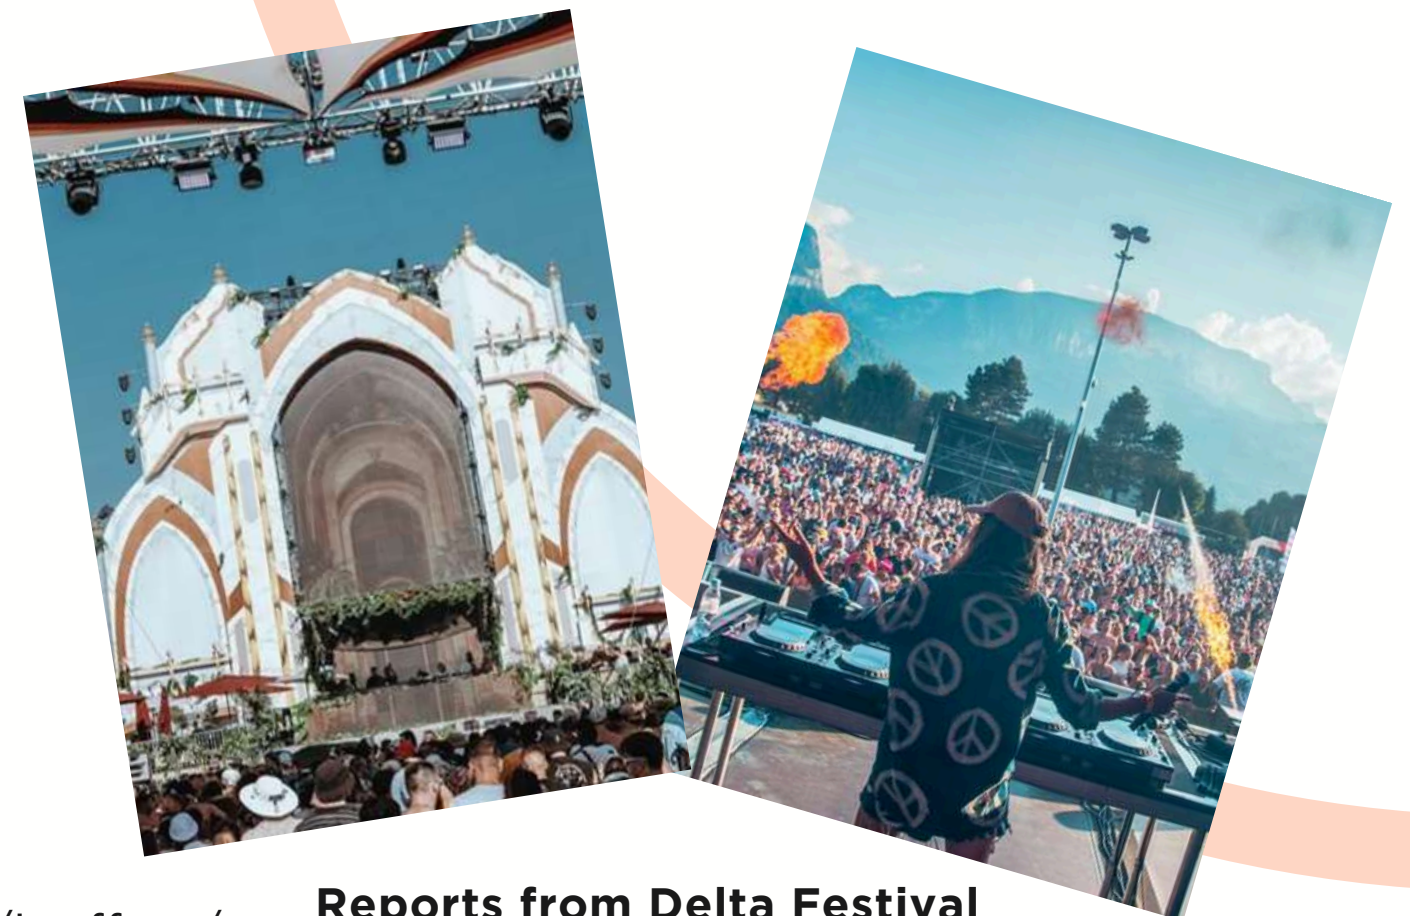

News, New Music Releases, New Albums

Event Reports

Artist interviews

All my published articles can be found here: <https://valliue.com/author/jooffrey/>

9

During my experience at Educlever as a Junior Marketing Promotion Officer, I developed several communication plans to strengthen the brand awareness of Orthodidacte and promote the company within the spelling and French language market on LinkedIn.

I designed the strategy, editorial planning, visuals, and managed the publications.

Visual creation using Canva and Adobe Illustrator.

On the left, you can see an example of visuals created for a carousel series entitled L'Ortho Hebdo, which highlights statistics about the French language and presents the Orthodidacte solution to address these issues.

Partenariat !

Orthodidacte & INNOVATION en éducation

Découvrez notre partenariat avec le **Congrès de l'Innovation en Éducation** !

Orthodidacte est fier de s'associer au Congrès de l'Innovation en Éducation, un événement qui rassemble les acteurs de l'éducation pour échanger autour des pratiques pédagogiques innovantes. Ensemble, nous partageons une **vision commune** : transformer l'apprentissage pour mieux préparer les générations futures. Pour plus d'informations, <https://congres.innovation-en-education.fr/>

Constat et besoin autour de la langue française dans le supérieur :
Découvrez Orthodidacte et repartez avec un cadeau !! 🎁

Assistez à une présentation de 45 minutes au cours de laquelle nous vous présenterons la solution Orthodidacte. Découvrez ses fonctionnalités pédagogiques spécifiques, conçues pour favoriser l'engagement et la progression de vos étudiants :

- pédagogie positive,

Mieux écrire en français - une compétence essentielle pour l'ÉDUCATION

Épisode 3 : Simplifiez le suivi et l'enseignement des compétences écrites

Bonjour,

Dans notre précédent épisode, nous avons vu comment le traitement automatique des langues (TAL) permet de personnaliser l'apprentissage des apprenants. Mais Orthodidacte ne s'arrête pas là : la plateforme met également à disposition des enseignants des outils puissants et intuitifs pour les aider à améliorer les compétences écrites de leurs élèves. Grâce à des technologies avancées d'analyse automatique, Orthodidacte simplifie le suivi pédagogique et enrichit la pratique enseignante.

Suivi automatique des progrès

Grâce à l'analyse en temps réel des réponses des apprenants, les enseignants disposent d'un tableau de bord détaillé qui leur permet de suivre les progrès de leurs élèves. Ils peuvent visualiser les compétences acquises, identifier les difficultés récurrentes et adapter leurs cours en conséquence.

As part of my communication strategy at Educlever, I designed and managed several newsletters aimed at strengthening the visibility and engagement of our target audience. These newsletters were intended to maintain regular contact with our subscribers while keeping them informed about the latest brand updates and new developments in the field of education and the French language.

Project 4 - Videos

To generate engagement on social media and enhance BASSETTI Group's brand image, I produced numerous motion design videos, handling the entire process, from creating the brief to final distribution, using Adobe Illustrator, After Effects, and Premiere Pro.

I also created videos for Educlever, this time to promote an online dictation event for companies. I produced a report on the event, capturing key moments, selecting shots, adding effects, and managing its online distribution and promotion.

During my experience at BASSETTI Group, I created and updated various communication materials. I also developed different support documents for the sales department at Educlever to promote the Orthodidacte product and showcase it during trade shows, business presentations, webinars, and more. Here is a non-exhaustive list of the materials I created:

- Product sheets
- White papers
- Landing pages
- Banners
- Flyers
- Webinar materials
- B2B brochures

Software Used: Adobe InDesign, Canva, and Adobe Illustrator

In addition to the numerous university competitions I participated in over the past three years for clients such as Tefal, Ferrari, the International Ski School, and Café Mokxa, I also wrote and designed a white paper to conclude my Master's degree.

Focused on the theme of festivals and the environment, this document is primarily intended for festival organizers, but also for anyone curious or interested in the topic.

*It is titled "**How to Reduce the Carbon Footprint of Your Music Festival**" and is available at the following link:*

Project 7 -

Agora Portal - Website

Visit the page here : <https://ensemble.aesio.fr/le-coin-infos>

The Agora Portal, now renamed “Le Coin Infos”, was a page created by my Digital Communication department, in which I actively participated.

As part of this project, I wrote content, contributed to the layout of various sections in collaboration with the project manager and UX designer, and managed the page weekly to update new articles, mutual insurance solutions, and support programs.

Additionally, I handled the internal communication of the project to increase awareness among employees. I developed and implemented a communication plan across multiple channels: internal newsletters, social media, and project presentations via video conference.

Project 8 - SEO - Website

Parent page bringing together all pages created for SEO

Internal linking between pages to create the “Prevention” structure

As part of this project, I was responsible for improving the SEO of the AÉSIO Mutuelle website. Over several months, I wrote articles and implemented internal linking between pages to create a new structure focused on prevention. This strategy aimed to position the website at the top of search engine results for various prevention-related keywords.

Project 9 - Motion Design - Agora Portal

These motion design videos aim to promote the Agora Portal / Le Coin Infos (Project 1) on social media. As part of this project, I created the briefs, captured video content from the website, and organized the video structure to assist the motion design project manager in producing the videos.

You can find this Motion Design playlist here: https://www.youtube.com/watch?v=8AQAjC1kFic&list=PLaxJVgkhTIUxC_CiFGCUwFuZlrdWHYQ6K
